

INSECT PLANET

Imagine and create your own alien insect planet with our interactive musical walkabout performers!

Fly away into outer space on a voyage into your creepiest, crawliest dreams, as you create a planet populated only by insects. Make up your very own weirdie space critter and get a bug's eye view of life, the universe and everything as you explore your imaginary intergalactic landscape. Compose an original space soundscape inspired by the sounds of spiders scritchng, fleas fussing, hornets hollering and bees buzzing. Or just boogie on down at the space bug disco!

This interactive creative play walkabout experience features Cloud Cuckoo Land Theatre's strolling ensemble of interactive performers and musicians. You're welcome to choose how you join in with music-making, expressive movement or craft activities: our responsive performers will take inspiration from children's brilliant creative ideas. Cloud Cuckoo Land is a neurodivergent-led company, and their work aims to be inclusive and ND-friendly. **Insect Planet** is suitable for all ages but 4-9 year olds especially enjoy it.

We offer drop-in alien insect crafts as a separate activity which ties in beautifully with the interactive walkabout performances to create an enchanting themed offer for families: this includes chances for visitors to make alien costume elements (antennae, wings) and mini insects using felting and willow techniques.

AGE	4-9 years (2 to 92 year olds also enjoy it!)
COMPANY	3 Performers and a Stage Manager, plus Specialist Craft Facilitator if required
